

# Marine Auxiliary Machinery Operational Management Contents

<b>Foreword</b>	01P		
Chapter <b>1. Types of Marine Auxiliary Machinery</b>	02P	Chapter <b>5. Structure and Handling of Steering Gear</b>	24P
Chapter <b>2. Current Situation of Marine Auxiliary Machinery Trouble</b>	02P	5-1 Structure of steering gear	24P
Chapter <b>3. Structure and Handling of Pumps</b>	04P	5-2 Steering gear trouble	27P
3-1 Classification of pumps	04P	5-3 Maintenance and handling of steering gear	28P
3-2 Pump performances	05P	Chapter <b>6. Structure and Handling of Hydraulic Mooring Equipment</b>	30P
3-3 Centrifugal pumps	06P	6-1 Outline of mooring winches	31P
3-4 Rotary pumps	09P	6-2 Outline of windlasses	31P
3-5 Pump trouble	11P	6-3 Outline of windlass and mooring winch hydraulic system	31P
Chapter <b>4. Structure and Handling of Air Compressors</b>	17P	6-4 Mooring equipment trouble	34P
4-1 Classification of air compressors	17P	6-5 Maintenance and inspection of hydraulic equipment	35P
4-2 Structure and working of air compressors	17P	<b>Afterword</b>	37P
4-3 Trouble and handling of air compressors	20P
